Hosted by Power Management Systems *in Our New Office!*

“ZONIT STRUCTURED SOLUTIONS”

The increased density of racks in data centers has created the need for more efficient and flexible power distribution

- We have a solution for that!

Supplying your loads with 2 sources of power without the added heat and power consumption of dual power supplies

- We have a solution for that!

An innovative new rack design that allows you to easily make the changes that you require without spending a lot of time and money

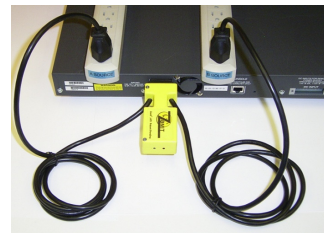

- We have a solution for that!

When: Wednesday, February 10, 2010

Where: 2460 W. 26th Ave., Suite 400-C

Registration & Breakfast: 7:30AM – 8:00AM

Presentation: 8:00AM – 10:30AM
